

# COVID (mRNA) VACCINES: The Most Dangerous Big Pharma Experiment in World History

- The Moderna/Pfizer shots are NOT VACCINES but EXPERIMENTAL “gene therapy” technology that sends synthetic mRNA into the body which produces a toxin that could prematurely kill large numbers of the population and disable more. The US Food and Drug Administration (FDA) has not officially approved this vaccine. No vaccine has ever been successfully developed for any coronavirus. (*Sources: Dr. Lee Merritt, 2021; Dr. Carrie Madej, 02/2021*)
- Persons with allergies or inflammatory diseases such as rheumatoid arthritis, Parkinson’s disease, Lyme disease, Crohn’s, cancer or any acquired immune deficiency should AVOID taking the vaccine as severe reactions and death are far greater for such people. (*Source: Judy Mikovits, PhD, molecular biologist, 2020*)
- Within the past 30 days, over 500 deaths and 40,000 adverse events have been reported to (VAERS), the Center for Disease Control’s (CDC’s) adverse event database; statistics have indicated that less than 10% of cases are actually reported. Over 100,000 doctors and medical professionals have united against the COVID vaccine. (*Source: freedomman.org; Dr. Sherri Tenpenny, 02/09/21*)
- The World Health Organization (WHO) advises pregnant women NOT to take the COVID vaccine. (*Source: Olmstead, 02/21*)
- The COVID vaccine “does NOT ...prevent you from carrying the virus... and infecting others.” (*Source: Moderna Chief Medical Officer Tal Zaks, 2020*) You may still be required to wear a face mask/social distance after getting the vaccine.
- If you have already had the COVID virus, you do NOT need to be vaccinated. Your body makes its own antibodies naturally which is the best defense against the virus. (*Source: Dr. Shelley Cole, 2021*)
- Deaths due to COVID-19 are less than 1% and do not justify use of a vaccine. (*Source: wonder.CDC.gov*) COVID-19 can be successfully treated with HYDROXYCHLOROQUINE and other treatments that doctors are prohibited from using. (*Source: Dr. Simone Gold, 02/21*)
